MAYOR HAVEMEYER REMINDS THE ALDERMEN OF

THEIR DUTY-THEY PAY LITTLE HEED. The Board of Aldermen met at 1 p. m., yeserday. There was a large crowd in the lobby, evidently expecting that some action would be taken on the Mayor's nominations for the office of Police Justice. Alderman Morris made a motion to take from the table the Mayor's message of June 5, nominating Messrs. Ackert and Streeter as Police Justices. The motion was lost by a vote of 7 to 5, Aldermen Clausen and Monheimer being absent, and Alderman Cooper begging to be excused as he had "paired off" with the latter. Those in the affirmative were Aldermen Billings, Falconer, Morris, Ottendorfer, and President Vance; those in the negative. Aldermen Flanagan, Kehr, Koch, Lysaght, McCafferty, Reilly, and Van Schaick. Alderman Morris then moved to take from the table the rest of the Mayor's nominees, but before the vote was taken the Chair announced the following communica-

tion from the Mayor, which was read :

taken the Chair announced the following communication from the Mayor, which was read:

Mayor's Office, New-York, July 7, 1873.

Wathe Homorable the Board of Aldermen of the City of New Fork; On the 5th day of June last I nominated to your homorable body for confirmation two persons for Police Justices. The nominations were laid upon the table. At the next meeting of the Board, one week later, it was resolved not to act upon the nominations for Police Justices multi the names of ten persons should be submitted to your homorable body for confirmation. According to the wish of the Board thus expressed, I, at the next meeting following the adoption of the resolution in question, completed the list.

These nominations were made pursuant to the provisions of the statute passed May 17, 1873, entitled "An act to secure better administration in the police courts of the City of New-York." This statute removes from place and power the present Police Justices upon the appointment of their successors. It was enacted in compliance with a necessity strongly felt, and almost universatly acknowledged in this community, that some sinch measure was absolutely inflagonable to enable the present government of the city to remedy, in one of its most important departments, the corruptions and frauds which pervaded the whole fabric of the city government as administered by our prefecessors.

The appointment of the new Police Justices and consequent removal of the present officials is made by statute to depend upon your confirmation in our Police Courts to secure which the statute was passed.

The appointment of the new Police Justices and confirmation the hames of persons possessed, in my integent, of character and the qualifications necessary to discharge efficiently the duties of the important affices they are nominated to fill.

For some mexhasined reason these nominations have not been considered by you. No action on the subject has as yet been taken. Why this should be so I do not pretend to understand; but in view of the fact tha

arly action, whatever it may be, the phone of expect.

The power vested in you ought not to be exercised in a arbitrary manner. A due regard will, I am satisfied, so awarded by you to the character and qualifications of the nominees of the executive. If in either of these articulars any one of them is found by you to be desired, and you will make known to me your objections, will endeavor to avoid them in any future nominations I may be called upon to make.

My natural institutes as well as my education in public life have led me to believe that the safety of our intuitions, ander our form of government, demands that

ader our form of government, demand-ader our form of government, demand-of the community should be regarded as

stuntions, under our form of government, demands that the interest of the community should be regarded as paramount to the interests of individuals, cliques, communitions, or rings; and that all delegated power should be exerted to promote the welfare of the people—not as a favot or as a grant, but as their right.

"the firm conviction of the correctness of these as, and in the light of my past experience; I have expect to discharge the duties which the law has imposed upon the office I hold; and I hope, in the matter of the Police Justices now before you, you will not permit any obstacle to be interposed to further delay you in the discharge of your duties, and thus obviate the action which has been more than functed at, of some of our constituents invoking the aid of another power to secure and maintain the public rights.

WM. F. HAVEMEVER.

Alderman Van Schaick moved that the communics. tion be received and printed in the minutes of the Board. "I have," he said, "seen it noted in a newspaper that there is a judicial tribunal which can compel us to give our reasons for not acting upon the Mayor's nominations. I, for my part, court such inquiry. I believe that corrupt influences have been used to gain the confirmation of different persons to high positions under the City Government, but such corruption does not attach to my skirts." The communication was then reed and ordered to be printed.

A motion authorizing the Controller to raise by bond \$2,500,000 and soan the same to the Industrial Exhibition Company was laid over. Alderman Morris then renewed his motion in reference to the names of Police Justices. Alderman McCafferty objected, claiming that a previous resolution deferring action upon the Mayor's message notif it should appear in The City Record when legally established, made it impossible to act on it at this time. The Chair held the point of order not well taken, and Alderman Morris's motion was lost by a vote of 7 to 5. The resolution relating to the paving of the streets in the Five Points, as previously published, called forth considerable discussion, but was unuity laid over.

THE CITY'S BURDENS.

SOME OF THE SUPERVISORS DO NOT CONSIDER THEM LIGHT.

A meeting of the Board of Supervisors was held yesterday, the Mayor being in the chair. At the close of the reading of the minutes, Supervisor Vance proved that the rules be suspended for the purpose of receiving the annual communication from the Commissoners of Taxes and Assessments. The motion being adopted, the law relating to the duty of the Board in receiving the assessments and tax-rolls of the city was read by the Clerk. Supervisor McCafferty then stated that it had been currently reported in the newspapers and elsewhere that the rate of taxation had been reduced to 2½ per cent, whereas, in his opinion, the rate was in reality equal to 6 per cent, owing to the increased valuation of city property. "The people," he continued, "might as well know, first as last, what they have to pay. I don't believe in any cloak of concealment." moved that a special committee of three be appointed to look over the assessments and tax-rolls, and to investigate the increase of valuation in the Twelfth, Nineteenth, and Twenty-second Wards of the city. Supervisor Vance then rose to a point of order, claiming that the rules had been suspended only to receive the report. Supervisor McCafferty repeated his statement that the matter needed an investigation, addisk that the property of the Sineteenth Ward has been increased in enormous value to the amount of \$19,000,000.

Supervisor Cooper then sprang to his feet, exclaiming that the cities of New-York and Brooklyn had been charged with over half the amount of the total taxation of the State, and in regard to the increase in the valuaion of property in the three wards mentioned, he said be could now buy land in the Twenty-second Ward for 220,000 which a year or two ago he could not have purchased for less than \$25,000.

Mayer Havemeyer then sustained Supervisor Vance's point of order, but Supervisor McCafferty would not be quieted. "The people," he said, "have been misled by he apparent reduction in the city taxation, whereas it actually no reduction at all, and I insist that a commattee be appointed to investigate the assessment rolls." Supervisor Vance replied that the Board of Supervisors had no power to change the figures presented by the Commissioners of Taxes. "Then," asked Supervisor McCafferty, "why are the books here at all?" "As a matter of form," answered Mr. Vance. supervisor Koch then appeared interested and desired

The work of decapitation still goes on at the Department of Public Works. Mr. Van Nort ances his determination to reduce the force to the minimum. A list of the removals and reductions yesterday is given below. The salaries of the men discharged amount to \$5.860, and the amount of reductions is \$4.000, making a total of \$9.860. Except in the case of Messra. Utley and Wayland, Superintendents of Public Baths, all the names in the list belong to the Bureau of Sewers. The removals took effect yesterday, the reductions from

BROOKLYN CONTROVERSIES. AN EFFORT TO REDUCE THE EXPENSES OF DEPART-

MENTS. At the meeting of the Brooklyn Common Council yesterday afternoon, a protest was received from residents of the Nineteenth Ward against the effal dock being continued on the Washington-ave. basin, as the odors arising therefrom were exceedingly offensive during the warm season. A resolu-tion offered by Alderman Zindle and provid-ing that offal should be unleaded in New town Creek, was referred to the Health Board. The Health Committee subsequently reported that a conference had been had with the Board of Health and the Board of City Works in reference to the complaints that had been made against offal contractor Clark, and offered resolutions, which were adopted, authorizing the Board of City Works to take such action as may be needed to cause an immediate compliance with the specifications and contract. Alderman Wylie offered

the following:

Whereas, In view of the heavy obligations existing against the City of Brooklyn, whereby the taxes have been largely augmented and rendered burdensome and oppressive to the people; and

Whereas, In view of the large expenditure required by the new charter it becomes the duty of the Common Council to reduce the expenses of the city to the lowest possible minimum consistent with the city's outstand-

possible minimum consistent with the city's outstanding obligations; therefore,

Resolved, That the Board of City Works and the Collector of Taxes and Assessments be and they are hereby requested to furnish to the joint Board of Aldermen and Supervisors and this Board of Aldermen respectively, at their next meeting, a statement of the names and residences of all clerks, assistants, subordinates, and cumjuyés, and of the salary or compensation paid or allowed ito such clerks, assistants, subordinates, and employées respectively.

or allowed ito such cierks, assistants, substanties, and employe's respectively.

Resolved, That the Joint Board of Aldermen and Supervisors be and they are hereby requested to take into consideration the facts, as they may be so reported, with a view to the permanent reduction of the expenses of the Departments of City Works and Taxes and Assistance.

Alderman Ropes did not think that the resolution would be operative, even if adopted, as the departments mentioned had authority to fix the compensation of the employés, if the total amount appropriated was not exceeded. He moved to lay the resolution on the

Alderman Wylie replied that the resolutions were of fered in the interest of the people, to enable the Joint Board to ascertain what amount of money should be raised. He claimed that the motion to lay on the table was in the interest of the Ring.

Alderman Ropes could not see what the Common Council had to do with the clerks of the Board of City Works. These departments would probably send a supplementary budget to the Board of Estimate, which was the proper channel.

Alderman Wylie said that he could not help it if some of the Aldermen had relatives and friends holding sine

ployes." The two resolutions as amended were then adopted, but the preamble was defeated by a vote of Alderman Wylle also presented a resolution asking

Alderman Wylle also presented a resolution asking that the minority report of the Special Committee on the management of the East River Bridge be printed in the minutes. He said that his object was to have it read by his constituents and the people at large, who had only had an opportunity to read the majority report. The motion was defeated by a vote of 12 to 7.

Alderman Wylle next offered a resolution authorizing the Mayor and Board of Health to make arrangements for the removal of dead animals during the warm season, if the contractor neglected his work. Alderman Richardson charged that Alderman Wylle had been an earnest advocate of Francis and George Swift in their persecution of Mr. Clark, last Summer, and had by his vote given the Swift a contract which has cost the city soo per day. Alderman Wylle retorted by stating that he had never voted as stated, and that Alderman Richardson's assertions were downright falsehoods. The matter was finally referred to the Health Committee.

It is probable that a meeting of the Liberal Republican State Committee will be held at Saratoga on July 23, for the purpose of fixing on a date for the holding of the State Convention. Alfred Wilkinson, the Secretary, has been requested to issue a call for the meeting of the Committee on that date. Saratoga is given the preference over this city because it is more central and can be more readily reached by the majority of the delegates.

WALWORTH STILL IN THE TOMBS.

By direction of the Sheriff, the parricide Walworth was removed from the quarters in the Tombs hitherto occupied by him to a cell on " Murderer's Row," where the convicts Sharkey, Murphy, and Gillen are lodged. It is said that when Walworth's friends learned of this action they were very much annoyed. Yesterday a deputation, fineluding Mrs. Walworth, Gen. Hardin, and Thurlow Weed, waited upon Sheriff Brennan to ascertain if it was not possible to place Walworth in some ascertain if it was not possible to piace walwork in it some other cell not in the neighborhood of the convicted relons. The Sheriff informed the deputation that he had only a few hours before visited Walworth, who had said to him: "I like my new cell much better than I calculated; I don't care to be moved from here." The deputation also urged the Sheriff to keep Walworth in the Tomba as long as he could; but the Sheriff expressed his determination to send him to Sing Sing to-morrow. It is probable that Gillen, convicted of the murder of his wife and sentenced to imprisonment for life, will be one of Walworth's traveling companions.

THE SBARCH FOR THE POLARIS. FITTING OUT OF THE TIGRESS.

The leak which was discovered in the Tigress, just above the stern bearings, last Saturday, has been whelly repaired. Among the many improvements which have been made is the placing of steam pipes throughout the whole vessel. The present ballast is being removed and coal substituted in its place. If necessary, ice will be used for ballast in the northern regions. The Tigress will sail between the 10th and the 15th of this month, probably next Saturday. She will carry 52 men, of whom 11 are officers and 41 are common sailors. Six of the 52 belonged to the Polaris, and were rescued from the ice floe. The Esquimaux who are to secompany the expedition will arrive to-day of to-merrow. The following are the officers of the

Ateamer:
Commander J. A. Greer, commanding; Lieut. H. C.
White, Executive Officer; Lieut. G. F. Wilkins, Navigator; Lieut. N. Sobree; Lieut. R. M. Berry; Assistant
Surgeon, E. W. Elston; Assistant Paymaster, G. E.
Baugham; First Assistant Engineer, Geo. N. Melville,
Acting Chief; Second Assistant Engineer, Wyp. A.
Mintzer, Acting First Assistant; Ice Masier, Geo. E.
Tyson; Assistant Ice Master, Etsha Chipman.

If the Polaris is found, Lieut. White will assume com mand of her. Lieut. White has been on three expeditions one to the west coast of Africa, for the purpose of suppressing the stave trade; a second to Tunis, and a third to Algiers. He is perfectly accustomed to and hardened against the most terrible cold, having been where the temperature was 32° below zero day after day. The men who are being weeted for the crew are strong, hardy, and of medium hight. Tall men, it is said, do not stand the severity of the climate very well. The Tigress will touch first at St. Johns, where she wilt receive coal. Thence she will sail to Disco, for dogs and seal-skin clothing. Here the Juniata will await her, with a supply of coal. From Disco the Tigress will proceed to Upernavik, and thence into the ice. She will make a short trial trip, on Friday, prob-ably, for the purpose of testing her engines and other machinery before taking her departure.

TOLERATING PESTILENCE BREEDERS. THE VESEY-ST. BOOTHS-UNAVAILING PROTESTS OF

THE BOARD OF HEALTH. A recent inspection of the booths along Vesey and other streets, in the vicinity of Washington Market by the Board of Health resulted in a sweeping denunciation of them. They block up the street and prevent a good circulation of air. They are many of them filthy, and are used for the sale of stale or unwholesome pro-ducts; and as they are thrown across the gutter which borders on the curbing, the space underneath becomes a receptacle for filth which, in the nature of the case, it is almost impossible to remove. Such is the charge against these booths from a sanitary point of view. They needlessly crowd streets which in their full width are far too narrow, and which it is the present tendency of city commerce to jam constantly. What makes the nuisance the more trying is the fact that it is altogether against law, and that, in the discharge of his duty, the Superin-

tendent of Iucumbrances should cause their removal.

It appears that the occupants of these booths pay a
fee to the owners of stores in front of which they are situated, and have for many years paid a nominal rent to the city. When the present Superintendent of Mar-kets came into office, he took the ground that the tolerating of such stands was illegal, stopped collecting the rents, and made an effort to secure their removal. A deputation from the stand-holders then waited upor Controller Green and made noisy complaints. The spirit Controller Green and made noisy complaints. The spirit displayed was so determined that Controller Green or dered the matter to be waived for a while, especially as a movement was on foot for the rebuilding of Washington Market as a two or three-story structure, which would tend to draw the holders of these stands into the market. The Superintendent then decided to make the rents far heavier than they had been, and raised them alo or 400 per cent. So the matter has dragged along, the market revenues being considerably increased, which, under an economical administration, is a strong argument in favor of toleration. After the recent inspection by the Board of Health, which resulted in a sweeping denouncement of the system as a pestilence-breeder, application was made to the Superintendent of the Bureau of Incumbrances for the removal of the stands. He declined, on the ground that it would be an expensive proceeding, and that there were no appropriations to cover it. The money was then guaranteed him by a responsible official, when the next plea presented was that he should not be willing to do it till his superior. Commissioner Van Nort, had approved of the measure. It should here be added that the owners of stores in front of which the booths are placed, since they receive a fee from the booth-holders, oppose the removal, and that it is stated on good authority that some of them are on intimate terms with the Commissioner. However this may be, it is certain that these allegal and pestilent stalls are tolerated against the protests of those whose duty it is to warn the city. displayed was so determined that Controller Green or-

Alderman Wylie said that he could not help it it sources to have of the Alderman had relatives and friends holding sine-cures under the Boards, and did not desire to have their names published. He thought it evident that there was some "undercurrent reason" for the opposition, which was mide to the passage of the resolution. He believed that the Tax Collector's office and the Department of City, Works were conducted in such a manner that it was absolutely necessary for the welfare of the tax payors that they should be investigated.

Alderman Richardson believed that it would be simply impudent on the part of the Council to undertake to instruct the Joint Board. Alderman Rodman expressed his objection to the whole matter claiming that the attacks on the Board of City Works were made by Alderman Welle for some simister reason. Alderman Ropes hoped that the resolutions would be rejected, as they in making useless statements. He defied Aiderman Wylie to show that he had any friend or relative holding position under the Board of City Works. Should not be taken up in making useless statements. He defied Aiderman Wylie to show that he had any friend or relative holding position under the Board of City Works. Alderman Taylor said that the resolution implied that the Joint Board was not able to transact its own business and was a plece of pretentious impudence. The motion to lay on the table was defeated, and Alderman Richardson then moved to adopt the first resolution, after striking out the works "subordinates and employées." The two resolutions as amended were then adopted, but the premable was defeated by a vote of Jersey, ex-Gov. Ward, and the Mayor of Jersey City. Jersey, ex-Gov. Ward, and the Mayor of Jersey City, beside the members of the Bar of New-Jersey, and the municipal officers of Jersey City generally. The serrices were opened with prayer by the Rev. Dr. Imbrie, followed by the Rev. W. W. Holloway, pastor of the church, who read portions of the Scriptures. The Rev. W. H. Campbell, D. D., President of Rutgers College, then delivered an address, in which he dwelt at length on the character of the deceased. He said that he was a man of strongly marked characteristics, in which there were no contradictions, no crookedness, no hypocrisy. He was first in his class in college, first at the Bar, and first on the Bench. He had a genius for discovering new things.

first at the Bar, and first on the Bench. He had a genius for discovering new things, if there were new things to be discovered. What he knew he knew accurately, and he was looked up to as authority, not only in law, but in general knowledge. He had a large heart and atrong affections. His love was not confined to his family, but was cosmopolitan in itsel character. His religion was of a humanitarian character; he newer became a communicant with the church, because he waited for something almost miraculous in the way of a conversion. He lived and died without a blot upon his name. The Rev. Mr. Holloway followed in a similar strain of eulogy, and after a benediction the body was borne to Greenwood for burial.

A meeting of the Hudson County Bar was held in the morning to take suitable action relative to the late Chancellor's death. Eulogistic addresses were made by the Hon. I. W. Scudder, Judge Bedle, and others. Messrs. A. B. Jackson, Peter Bentley, Isaac W. Scudder, Jacob Weart, and Washington B. Williams were appointed a committee to draft appropriate resolutions, which were subsequently reported and adopted.

The resolutions describe him as "an advocate possessed of a facility of illustration, an untiring energy, and great scope of mind. As a lawyer he was among the most learned, with the ability to apply with great effect his varied acquirements in the causes in which a few was engaged. As Surrogate and Prosecutor of Plens in the County of Bergen he evinced a care, industry, and ability which gave evidence for his fitness for more important positions. As a member of the legislative department of the Government he left his impress on the laws of our State, many of our important statutes hasing been framed by him and passed at his suggestion. He performed the arduous duties of Chancellor of the State with a promptness, energy, and ability which gave evidence for his fitness for more important positions. THE HABERSTROH HOMICIDE.

An inquest was begun, yesterday, relatice to to the death of Francis Xavier Haberstroh, better known Schmidt, a sheemaker, of No. 409 East Fourteenth-st., who had been drinking tokether during several hours, entered the saloon and called for liquor. There were already present about 20 men who had been working on an adjacent new building, and whose employer had given them some money to buy beer for themselves. One of the men, who, it is inferred, had been invited to drink by the deceased, insultingly replied that he would not "disgrace himself by drinking with a Dutchman." Some of the men pushed the witness and the deceased from the asloon, and a man, who is said to have been William Larkin, a bricklayer, and who subsequently fied, struck the deceased on the head, knocking him into the gutter, where he lay until he was carried home by the police, suffering from a fracture of the skull, which resulted in his death on the foliowing Sunday. The inquest viil be resumed at 10 a. m. to-morrow.

September. It is expected that these experiments will add materially to the present knowledge of inspectors and engineers, in regard to the conditions under which boiler explosions are most likely to occur, and will consequently lead to the prevention of many serious disasters.

THE ALLEGED REVENUE FRAUDS. To the Editor of The Tribune.

SIR: The publication of the informer's affidavits is the first definite information we have of the charges ledged against us at the Custom-house, and until we were apprised of the accusations we could not respond to them. We avail ourselves of this, the first opportunity, to say that those charges and accusations are absolutely untrue-untrue in totality and in detail are absolutely untrue—untrue in totality and in detail—that they have not yet been corroborated by official investigation, and that, should the customs authorities conclude to proceed on the informer's unsupported statements, we propose to establish our innocence in the event of a judicial investigation. Meanwhile, we demand in simple justice that we shall not be condemed, nor suspected even, by the public, on the mere aparte testimeny of an interested informer, who, by his own confession, was accessory to the pretended crime, and has concealed it for these five years and upward.

CRIMES OF LUNATICS.

Deputy Sheriff William H. Shields conveyed to the State Lunatic Asylum at Utica, yesterday, the convicts Patrick Leavy. John H. Worthington, and William Cafferty, who were acquitted of the crimes with which they were charged on the ground of insanity. Before their removal from the Tombs an examination was had, which satisfied the medical experts that the criminals were still insane.

Leavy killed his wife with a saw on Sept. 30. A year pefore he had been confined in the Ward's Island Luns tic Asylum, but had been discharged at the request of his wife. He was tried in the Court of Oyer and Terminer, on May 14, 1873. Worthington was tried in the ner, on May 14, 1845. Worthington was tried in the Court of Oyer and Terminer, on May 28, for firing a pistol at William McMichael. The facts adduced showed that the accused was a monomanise, who believed his life to be in continual danger from some of his best rriends, among whom he in his moments of sanity recknowed McMichael. Cafferty was tried in the Court of General Sessions, before Recorder Hackett, early last month, for robbery in the first degree.

JUDGMENT AGAINST FIELDS.

The following order, granted by Judge In-

The following order, graham, was served upon Sheriff Williams of Kings County yesterday:

Whreas, indgment was repdered on the lat of July, 1873, in the Supreme Court, Albany County, between the People of the State of New York, plaintiffs, and Thomas C. Fields, defendant, in favor of the said plaintiffs against the said defendant, Thomas C. Fields, defendant, in favor of the said plaintiffs against the said defendant, Thomas C. Fields, for the sum of \$553,551 80, as appears to us by the judgment twas docketed in your county on the 5th day of July, in the year 1873, and the sum of \$553,551 80, with interest thereon from July 1, 1873, is now actually due thereon;

Therefore we command you that you satisfy the said judgment out of the personal property of the said fund;

REAL ESTATE.

NEW-YORK, Monday, July 7, 1873. There was but one public sale announced

to be made at the Exchange to-day, viz.: By James M. Miller, who advertised to sell by legal order, under the direction of Charles A. Jackson, referee, several parcels of real estate, located on Orchard, near Grand-st., which sale was adjourned until Wednesday next, 9th inst. Regarding the suburban sales advertised for to-day, by Messrs. A. D. Mellick, jr., & Bro., at Plainfield, N. J., and by Messrs. Blackwell & Co., at Tarrytown, Westand by Messrs. Blackwell & Co., at Tarrytown, Westchester County, N. Y., we shall be enabled to give detailed reports as to results under to merrow's date.

Among other public sales announced to be made on
Wednesday, Jere. Johnson, Jr., advertises to sell on the
premises, at Mount Vernon, Westchester co., N. Y., by
order of the legal referee, 200 specially destrably located
lots of land, situated within a short distance of the
station, and being the property known as the "Farrington" Estate. As the property known as the "Farrington" Estate. As the property to be offered is within its
miles of Forty-second-st., and only one mile distant from
the line of proposed annexation, it is practically within
the limits of New-York, yet beyond the line of city taxation. This general neighborhood is rapidly improving,
and the opportunity here to be afforded to make investment in truly desirable suburban reality has seldem
heen aurpassed. A special train will leave Porty-secondst., at II a. m. on the day of sale, free passes for which,
with descriptive maps of the property to be sold, can be
obtained of the ancetoneer at his office in this city.
